

SEP Funding

Supplemental Environmental Project (SEP) funding is available to improve public health, reduce pollution, increase environmental compliance, and bring public awareness to neighborhoods most burdened by environmental harm. This funding comes from the settlement of enforcement cases. Violators may voluntarily agree to fund a project as part of their penalty for failing to follow CARB's rules and regulations.

SEP Funding

Supplemental Environmental Project (SEP) funding is available to improve public health, reduce pollution, increase environmental compliance, and bring public awareness to neighborhoods most burdened by environmental harm. This funding comes from the settlement of enforcement cases. Violators may voluntarily agree to fund a project as part of their penalty for failing to follow CARB's rules and regulations.

Eligible SEP Recipients

CARB's SEP Program allows a broad range of organizations to submit proposals and receive funding, including:

- 501(c)(3) nonprofit organizations
- Community-based organizations
- Local, regional, or state entities
- Tribal nations

SEP Funding Project Types

SEPs must fall in one or more of the following categories to be eligible for funding:

- Pollution Prevention or Reduction
- Environmental Restoration or Protection
- Environmental Education or Compliance Training
- Community Monitoring
- Trans-Boundary, including other states and Mexico
- Other SEPs can be considered on a case-by-case basis

Examples of funded SEPs: Mobile asthma clinic, weather station, insecticide reduction school program
