

What does environmental justice mean to you? What words come to mind // ¿Qué significa para ti la justicia ambiental? ¿Qué palabras vienen a la mente?

# If you had the opportunity to speak with the board, what do you want them to know about your community? What information do you think is important?

Our community should not be made subordinate to the forces of capitalism.

Clean air for ALL

Clean air should be the standard for everyone

Equity in outcomes is also important: clean air everywhere.

Our community is resilient and thrives despite the toxic life we have been forced to live in. We deserve to live in a healthier place

Since moving back to Barrio Logan in 2015 I have developed allergies. In my life I have never had any breathing related issues. To get this illness in such a short time is ridiculous.

That our community deserves better. That our community deserves investments to eliminate toxic air pollution and that our community should not live less than 14 years compared to affluent neighborhoods.

Pediatric asthma rates drive health care costs. We need to address root causes to control these causes.

My community is diverse and full of hard working households who want a clean, safe place to live and thrive to build a better future.

# If you had the opportunity to speak with the board, what do you want them to know about your community? What information do you think is important?

the movement has began with the people. to support the most affected and to encourage grassroots leadership, the moms, and grandmas and value the historical work taking place

Residents want clean air for safe living. Residents dont want to be ignored by sdapc. Residents want to know what we are exposed to in air, water. Want to be informed on hazardous air in bad events like navy fore

The entire waterfront has poor air.

We are a strong, intelligent, hard working community with much love in our families and neighbors.

Apply laws equally

# What do you think SDAPCD staff can do to support environmental justice and equity?

-

Use their voice to constantly advocate for our community

They should develop a public workplan on how they are raising every staff members core competencies on environmental justice.

Collect important data for future use.

SDAPCD can invest in ways to amplify evidence from lived experience without relying solely on scientific instruments that are not always reliable.

Educate, educate. Help everyone understand what we can do to make a difference

staff should make meeting materials available ahead of time to those who only have audio connections to virtual meetings

Support the local efforts that are taking place in the neighborhoods. Amplify the voice of the residents. Provide stipend for the outreach and more event participation so our lives are centered on healing the environment

Frequent communication with residents and small businesses.

# What do you think SDAPCD staff can do to support environmental justice and equity?

Make all recorded data and community feedback publicly available on the internet for everyone to review, so we can discuss.

Educate and learn from and for the communities. Be more open-minded and compassionate about the feedback.

Provide technical assistance as needed.

# Which SDAPCD function do you feel you want to know more about? // ¿Sobre qué función SDAPCD cree que desea saber más?

# Which area do you feel you need to be more engaged with? / ¿Con qué área sientes que necesitas estar más comprometido?
