|  |   |                          |   |  |  |
|  |   |                          |   |  |  |
|  |   |                          |   |  |  |
|  |   |                          |   |  |  |
|  |   |                          |   |  |  |
|  |   |                          |   |  |  |
|  |   |                          |   |  |  |
|  |   |                          |   |  |  |

<sup>1</sup> Maintain current documentation to demonstrate applicability of any coating category pursuant to Subsection (d) (2) or (d)(3) of Rule 67.11.

<sup>2</sup> Not applicable to low-solids coatings or solvents per Rule 67.11(d)(4-6)

<sup>3</sup> Stripping Materials will comply with Rule 67.11(d)(5) if material contains 200 grams or less of VOC per liter of material or the material has a total VOC vapor pressure of 2 mm Hg or less, at 20° C (68° F).
