Permitting Engagement

RULE 15. PERMIT PROCESS-PUBLIC NOTIFICATION

(Adopted and Effective 09/18/90)

- (a) Lists of new permit applications received will be posted in the District office on a weekly basis. These lists will be available for public review during normal business hours. A copy of the list will be provided to the news media, and to any person or interested group who has requested a copy in writing.
- (b) Upon issuance of an Authority to Construct, Temporary Authorization, Permit to Operate, or a revised Permit to Operate, a copy will be mailed on the day of issuance to any person or interested group who has requested a copy in writing.
- (c) The permit file will be open to public inspection to the extent required by the California Public Records Act.

Permit Applications

[Permit Applications Received](#)

.xlsx file extension is a Microsoft Excel Open XML Spreadsheet (XLSX). You can also open this format in other spreadsheet applications, such as Apple Numbers, Google Docs, and OpenOffice.

The above linked Application Dataset contains a list of applications for permits the District has received and is processing. Many types of equipment and processes require authorization from the Air Pollution Control District before installing, modifying, or operating (information on the types of operations and businesses that need this authorization can be found [here](#)).

There are 3 types of authorizations that are included in the Application Dataset. Most applications will be for equipment or operations that require an Authority to Construct and Permit to Operate, and will have the phrase "APP" in the Application Record ID.

Permitting Engagement

Certain Projects with elevated concentrations

Public Notice for Sources Located within 1,000 feet of a School

Public Notice for Title V Sources

Public Comments

Number of Applications Received in 2020	451
Permitting Actions Taken in 2020	777
Public Comments Received in 2020	6

Stakeholder Engagement

On June 29, 2021 the District released a draft of the 2020 Permitting Actions report for public review and scheduled a virtual public meeting for July 29, 2021

District reached out to multiple organizations, community partners, regulated community, and members of the public

On July 29, 2021, the District held a virtual public meeting
Spanish interpretation services were provided during the meeting
The meeting is available on the District's YouTube Channel

Staff Recommendations

Develop Public Participation Plan to inform all communities about the District's roles and responsibilities and how to inquire and submit comments regarding permit applications

Consider revisions to District Rule 15-*Permit Process-Public Notification* to provide further opportunities for all members of the public to stay engaged in the permitting process

Enhance the District's website to ensure it is informative and user-friendly

Today's Recommendations

Staff Recommendation

- Receive and consider the 2020 Permitting Actions report and comment on staff's proposed recommendations to enhance transparency and public engagement in District permitting actions
